Dear Residents/Family/Friends/Staff,

**Summary of Changes Since Last Notice:** We are reporting three (3) staff members (of which one is still pending) with positive Covid-19 results. This brings our total active cases to seven (7). The facility has had a cumulative total of seventy-four (74) Staff and eighteen (18) Resident Covid-19 cases associated with the facility to date. The staff members have been placed on medical leave and removed from the schedule upon notification to minimize exposure risk to other Residents/Staff and will remain on medical leave until they meet the mandated criteria to return to work.

**Action Plan:** Our action plan exceeds revised state and local guidance. We have successfully made it through day 3 of our Resident Testing Protocol without any additional cases. All Residents in the building will be tested for five days straight. Once we achieve zero positive covid-19 cases during a five-day period, we will transition to Resident testing every three days until we reach a total of fourteen days without any new Resident cases of Covid-19. Any new case will reset the testing protocol to day 1. Unvaccinated staff are required to be tested twice a week and we will continue voluntary surveillance monitoring of vaccinated staff weekly. Any subsequent positive test results will be communicated.
