Residents/Family/Friends/Staff,

**Summary of Changes Since Last Notice:**

We are reporting one (1) staff member who has tested positive for Covid-19. This brings our total active cases to two (2). The facility has had a cumulative total of ninety-six (96) Staff and twenty-two (22) Resident confirmed Covid-19 PCR tests associated with the facility to date. The staff member has been placed on medical leave and removed from the schedule upon notification to minimize exposure risk to other Residents/Staff and will remain on medical leave until they meet the mandated criteria to return to work.

**Action Plan:** Our action plan will mirror revised state and local guidance. Seventeen (17) Residents were identified as close contacts and Social Services has contacted the responsible parties. If you have not been contacted by Heather about this matter, your loved one was not identified as a close contact. We have implemented Outbreak Testing which consists of three covid tests at intervals recommended by public health guidelines. All first-round rapid tests came back negative. We will PCR next week. The third round of testing will be administered in two weeks. Unvaccinated/not up-to-date staff are required to be tested weekly and we continue voluntary surveillance monitoring of up-to-date vaccinated staff weekly. Any subsequent positive test results will be communicated. Additional protective measures will only be implemented if there is internal spread of covid-19 to the Residents.

Contact Scot Harmon at 513-842-0774 with questions.

Sincerely,

Scot Harmon (Administrator) and Patricia A. Clark, DM (CEO, Administrator)
