

January 17, 2022

Summary of Changes Since Last Notice: We are reporting one (1) staff member and one (1) Resident (of which is pending) with positive Covid-19 results. This brings our total active cases to five (5). The facility has had a cumulative total of seventy-one (71) Staff and eighteen (18) Resident Covid-19 cases associated with the facility to date. The Resident is on isolation/droplet precautions and will remain in their private room until they have been medically cleared by the Physician/Medical Director. The staff member has been placed on medical leave and removed from the schedule upon notification to minimize exposure risk to other Residents/Staff and will remain on medical leave until they meet the mandated criteria to return to work.

Action Plan: Our action plan exceeds revised state and local guidance. Our testing protocol has been reset to day 1. All Residents were tested this morning and the results were all negative. All Residents in the building will be tested for five days straight. Once we achieve zero positive covid-19 cases during a five day period, we will transition to Resident testing every three days until we reach a total of fourteen days without any new Resident cases of Covid-19. Any new case will reset the testing protocol to day 1. Unvaccinated staff are required to be tested twice a week and we will continue voluntary surveillance monitoring of vaccinated staff weekly. Any subsequent positive test results will be communicated.
