

January 21, 2022 Update

Dear Residents/Family/Friends/Staff,

Summary of Changes Since Last Notice: We are reporting three (3) staff members with positive Covid-19 results. This brings our total active cases to eight (8). The facility has had a cumulative total of seventy-seven (77) Staff and eighteen (18) Resident Covid-19 cases associated with the facility to date. The staff members have been placed on medical leave and removed from the schedule upon notification to minimize exposure risk to other Residents/Staff and will remain on medical leave until they meet the mandated criteria to return to work.

Action Plan: Our action plan exceeds revised state and local guidance. We have successfully made it through day 5 of our Resident Testing Protocol without any additional cases. We will transition to Resident testing every three days until we reach a total of fourteen days without any new Resident cases of Covid-19. Any new case will reset the testing protocol to day 1. Unvaccinated staff are required to be tested twice a week and we will continue voluntary surveillance monitoring of vaccinated staff weekly. Any subsequent positive test results will be communicated.
