

July 16th Update

Residents/Family/Friends/Staff,

Covid-19 Status: We have had no known positive resident cases of COVID-19.

Regulatory Changes: There have been no recent regulatory changes overseeing LTC related to the pandemic. As a result, if any staff member or resident has a positive covid-19 test, any resident identified to have had close contact with the positive individual are required to undergo a 14 day quarantine regardless of vaccination status per Ohio Department of Health orders. We acknowledge that this is frustrating as it counters CDC guidance however we are licensed and operate under ODH/CMS and want to remind everyone of this order as cases are on the rise.

Hamilton County's positivity rate: has **increased** to 1.4%. The visitation program can continue if the positivity rate remains below 10%.

Spectrum Upgrade: Yesterday our facility began an upgrade to our cable system which includes more channels and removal of individual cable boxes attached to a TV. Please be patient while the installers transition each room to the new system and contact Maintenance or Social Services if you are experiencing any technical difficulties.

Help Keep Us Covid Free: Due to the significantly more transmissible delta variant now dominant in America, we continue to encourage everyone to get a covid-19 vaccine. If you are experiencing any symptoms of an upper respiratory infection, please stay away from the facility as the symptoms for covid-19 continue to evolve.

As always if you have any questions/comments/concerns please contact me, Scot Harmon (Administrator) or Patricia Clark (CEO).
