

September 27, 2021 Special Update

Residents/Family/Friends/Staff,

We are happy to report that Skilled Care Pharmacy will be hosting a Booster Vaccine Clinic TOMORROW (Tuesday) from 9:00 AM to 12:00 PM at The Beechwood Home for our Residents and likely Staff who received their second dose of the Pfizer vaccine greater than or equal to six months ago. We are grateful to our pharmacy provider who was able to accommodate our urgent scheduling request as we strive to implement any strategies possible to prevent and if needed combat the virus thereby keeping our Residents and Staff as safe as possible during this ongoing pandemic.

Any Resident or Staff member who has not received a covid-19 vaccine to date is welcome to attend the clinic and begin a vaccination series.

As always if you have any questions/comments/concerns please contact me, Scot Harmon (Administrator) or Patricia Clark (CEO).
