

September 30, 2021 Update

Dear Residents/Family/Friends/Staff,

Summary of Changes Since Last Notice:

We are reporting one (1) Resident with confirmed PCR positive test (with two additional Resident PCR's pending). This brings our total active cases to five (5). The facility has had a cumulative total of thirty-seven (37) Staff and two (2) Resident confirmed Covid-19 PCR tests associated with the facility to date. The Resident has transitioned to our isolation unit on the 1st floor.

Action Plan.

Effectuated Resident and their Responsible Party have been notified.

The Resident will remain in the isolation unit on the 1st floor until cleared by our Medical Director to return to their private room. The isolation unit is staffed with an LPN/RN who is not permitted to interact with any other Residents during that shift. Specialized protocols will be in place for entering/exiting the isolation area and when possible, items entering the space will exit via the trash.

Our testing action plan will **exceed** revised state and local guidance out of an abundance of caution. Despite five (5) Residents being identified as close contacts during the contact tracing process, we voluntarily elected to rapid test everyone associated with the 2-2 unit and all of these tests have come back negative. Sometime next week the entire 2nd floor will receive a PCR test pertaining to Outbreak Testing step 2. We will continue with surveillance monitoring of staff which entails twice weekly for unvaccinated and weekly for vaccinated. We are also going to proactively rapid test all Residents for the next five days. Any subsequent positive test results will be communicated.

Contact us with questions.

If you have any questions about COVID-19 or the steps that we are taking to protect our residents, please contact Scot Harmon, Administrator, at 513-842-0774, sharmon@beechwoodhome.com.

Sincerely,

Scot Harmon,
Administrator
